Seen, Heard and Told

By The Editor

Let's all attend Grenada Grocery Company's "Open House" next Wednesday. They are going to put the big pot into the little one and make hash from the skillet.

It looks like Homer Williams' big "X" got all turned around this week. He was alarmed about it.

dere mr top. sense mr tom has tuk his bibble out uv the valt and gone 2 readin it 2 them payrollers I gess thay shore r goin 2 git rite, i nevver hurd bi thet mr tom was sich a bibble man. ner the tall sick no more neether.

Lest the reader forget, I am still high.

Next week, we are going to give Joe Neely, who has been in business in the some building 30 years, a send-off.

In the meantime Joe and John Keeton and Gene Trotman are having a helluva time in the Rio Grande valley, but most of us believe they spend most of their time in gay old Mexico "down below the border".

Fred Griffin who has a modern controption to sway squeaks away, hinted to us that he would like to get some of those squeaks from cars while those fellows were having a good time at the open house. Of course, all we can do is run his ad, and tell what he said.

While in Jackson Saturday, we ran into some real GCW fans, Henry Johnson's wimmen folks.

If those state senators are doing what Paul hinted they are doing, fooling around with fast wimmen and drinking bootleg licker, they should be recalled. Most of them are too old for that kind of foolishness anyhow.

Add to things Gone with the Wind: back pay for the college professors.

One of the best things Governor Johnson could do to help save the situation would be to call up Mike Conner and say, "Now Mike, let bygones be bygones. The election is over. Come over to the mansion tonight and advise me how to get this thing straightened out".

With John Culkin back in his seat in the Senate, there will be reinforcements to the flock who believe in economy in government.

Aint they sweet.

We are rather proud of this issue, the first 10 page issue we have got out since Christmas. Advertisers have become convinced that people read this newspaper and do not use it for unholy purposes.

Dear Kenneth Toler: you ought to depend on your own correspondent in Grenada and not pick up stuff from the GCW and rewrite it.

Those who want the new school and those who want the new armory are lining up. If they fight each other, both will lose; if they get together, as they are, both the armory and the school may be obtained.

Since we have a new privilege tax collector living right here in Grenada, we imagine there is going to be some more of them collected. He is such a fair man that he is not going to penalize poor negroes and poor white folks and let the big shots get away. He can begin on me, and try to collect my privilege tax, due the county, for operating a job press, provided he collects from others, taxed by the same book and page that taxes me. Start on me Donald, not that I am a big shot.

Mike and Fred. My God, what is the world coming to?

Nobody killed on the highway recently.

We welcome to the announcement column the name of Tom G. Abernethy of Okolona who wants to root A. L. Ford out of his warm place - and says he is going to do it too. At the present time, we are not taking any stock in the congressional race, just trying to get $15.00 a head from as many as possible.

From what the boys at the court house say, they are going to let Grenada County printing be done in Grenada.

One by one we approach our cherished goal, our paper in 60 percent of the homes of the county. We are not optimistic enough to hope for 80 percent. Mr. Frank Lawrence, one of the hardiest men of Beat Five, and a handshaker worse than Cousin Ira, became a new one Saturday.

Thomas G. Abernethy, District Attorney, Is Congress Candidate

The Grenada County Weekly has been authorized to announce that Hon. T. G. Abernethy of Okolona is a candidate for the important office of Congressman from the 4th Mississippi District.

Mr. Abernethy is at this time serving as district attorney of the 3rd district, a post to which he was reelected without opposition in 1939. His public record included one term as mayor of Eupora, fifteen years of active practice of law, city attorney of Okolona 8 years, and over four years service as district attorney.

He is 37 years of age, a native of Webster county and the son of Mr. and Mrs. Thomas F. Abernethy of Eupora. He has lived his entire live in the congressional district he hopes to serve.

Mr. Abernethy is a York rite Mason and a Shriner, a member of the Okolona Methodist Church, and a steward thereof. He is on the board of directors, and vice president of the Okolona Chamber of Commerce.

His full statement to the people of this district is as follows:

To the People of the Fourth Congressional District:

Dear Friends:-

It has been my ambition for a number of years to serve the people of the Fourth Congressional District as their Representative in the Congress of the United States. Prompted by this ambition, and many solicitations received from every section of the District, I am making this my formal announcement as a candidate for this high and exalted office, subject to the action of the Democratic primaries in August.

No other office, in my opinion, offers a better opportunity to render a great and lasting public service for our people. I want you to give me this opportunity to serve you. If elected, it will not be my purpose to furtner my own personal interests, nor the interests and welfare of a MERE FEW. On the contrary, I will strive, and do now pledge you, to serve ALL OF THE PEOPLE of this District and those of OTHER SECTIONS ONLY when tneir interests are not in conflict with ours. There are no ties, nor interests, nor holdings, that would prevent me from so doing, or that would even influence or tempt me in the slightest against the people of my District.

In this District my ancestors for generations were born and reared. In this District I was born and reared and herein I expect to always live. In this District are all of my interests, hopes and ambitions. Your problems have always been and shall ever be my problems. To help you solve them, to improve the conditions under which we live, to render you—my fellow citizens—a lasting public service, and thus inscribe my name with honor and distinction into the histories of our great State and Nation, is now and will ever be my sincere ambition. To attain this honor and distinction I am earnestly resolved.

I have made a thorough survey of this District and I am satisfied and convinced that we can and will succeed in this campaign. If you are satisfied with my qualifications, my ability to serve, and have faith and confidence in me, then I most respectfully solicit your support and influence and urge you to unite with us and victory will certainly be forthcoming.

At a later and appropriate date my Campaign Manager will be designated, headquarters opened and my platform will be officially and formally announced.

It is my intention to conduct a vigorous and active campaign. I expect to visit in each and every community of the District and see as many of you personally as is humanly possible. I would appreciate hearing from you by letter, or otherwise, and will always welcome your advice and counsel.

Respectfully yours,
THOMAS G. ABERNETHY

Okolona, Miss., March 12, 1940.

Walter Strider Exonerated At Preliminary Hearing

After hearing the evidence produced by opposing counsel, Squire C. B. Boushe and Mayor and ex-officio J. P., E. C. Neelly, at a preliminary hearing which attracted large crowds of curious people and at which a brilliant array of lawyers was present, acquitted Walter E. Strider of the murder of B. W. Smith Friday, and rendered a verdict of justifiable homicide.

Numerous witnesses were introduced by the prosecution, after which a motion to dismiss was overruled by the justices. Following that, defense witnesses, including the defendant, Mr. Strider, were examined.

The hearing required practically all day, with only a brief intermission at the noon hour. Messrs. Sam Mims, W. B. Nicols and Cowles Horton of Grenada and Jim C. Breland of Sumner represented the defendant, while Richard Denman assisted the District Attorney, J. P. Coleman of Ackerman, and the county attorney, Marshall Perry of Grenada, in the prosecution.

It was alleged that Mr. Strider shot and killed Mr. Smith in the office of the former on the previous Monday morning. At the trial Mr. Strider sustained his contention that he killed Mr. Smith in self defense.

Mr. Smith, a native of Yalobusha County, but a resident of this county for about thirty or forty years, lived near Hardy. He served one term as supervisor of his beat. At the time of his death he operated a small mercantile establishment near Hardy and managed his farm.

Mr. Strider, a native of this section, has been the active head of the FSA of this county ever since the inauguration of the program as the Rural Rehabilitation unit.

TAX SALE POSTPONED

Under the authority of a law recently passed by the state legislature, which permits the boards of supervisors in certain "drough-stricken" counties to postpone sale of land for nonpayment of taxes from April until September, the Grenada county board of supervisors assembled Monday and took such action, that it postponed the tax sale until September, 1940.

School Band Is Added Attraction; Samples and Souvenirs Free

Better to acquaint the consumers of North Mississippi with their facilities for expeditious handling, care and sale of their varied products, Grenada Grocery Company will hold "Open House" to the people of North Mississippi next Wednesday, March 20th, from 2 until 6 p. m.

Their mammoth plant on First St. and the I. C. Railroad in Grenada will be thrown open to the public, and everyone in North Mississippi is invited to come to the plant where not only a cordial welcome awaits them, but a series of instructive talks on foods and liberal samples of various products will be given by the 40 manufacturers who are cooperating to make this day a success. Music will be supplied by the famous Grenada High School Band.

No pains have been spared to show the entire workings of this smoothly operating establishment, in which its owners, management and employees take justifiable pride, as they do in the steady growth which has come as a result of the combined efforts of all persons connected with the company. Taking pride in the quality of the goods that it transmits to the retailers, this company welcomes the opportunity to provide space and facilities to the manufacturers to use in demonstrating various products to the consuming public.

To add zest to the day, the company is offering several substantial prizes to guess a barrel of flour to the driver of the truck or bus which brings the greatest number of people; 100 pounds of sugar to truck driver bringing the youngest and oldest person; the driver and occupants of the truck or bus coming from the greatest distance, all will be rewarded, the driver of that truck with $10.00 in cash, and each occupant with a pound of coffee.

Wednesday evening, at Hotel Barwin in Grenada, from 7:15 until 9:30, the merchants and their employees of North Mississippi will be guests of Grenada Grocery Company, and all merchants and employees are urged to remain in Grenada until the conclusion of this event which will feature a floor show, put on by talented persons of Grenada and by an address by the nationally known Mr. Carlton F. Our Pastor, J. B. Ray returned home last Monday after attending the evangelistic conference at Clinton. He reported a wonderful meeting of the pastors of Mississippi together.

If the people of Grenada want a school building and an armory they can have both. Neither the board of supervisors nor the city council will likely issue any bonds until the matter is submitted to the people. There is no occasion yet a while to get all frothy under the flanks about either matter.

It looks like a lot of those good things that the average man expected have indeed gone with the wind.

Me and Paul.

WEDDING

On last Saturday night a wedding of beautiful solemnity was celebrated in the home of "Mr. What Difference Does It Make". The bride, the daughter of "Mr. What Difference Does It Make" and her scared groom, "Mr. What's His Name", were joined in holy matrimony by preacher "I Don't Believe I Know". The bride wore pea green with red accessories and carried a banquet of tiger lilies. The maid of honor, the bride's sister, was attired in a beautiful frock of three colors, blue, tea rose and gold. The only gentleman attendant, Mr. "Crap-O" wore his cousin's overall suit. The bride was carried down the aisle by her father and cheered up it by the groom. "Mr. What Difference Does It Make", Jr., handsome brother of the bride, held a small sawed-off shot-gun. The charming "Miss Dovey Wovey", beautifully played the wedding hymn, Turkey in the Straw, accompanied by "Miss Ant Hill" who so thrillingly sang, I'll Be Glad When You're Dead You Rascal You.

This paper joins several other friends of the two families in wishing them much happiness, and that they won't have to put up with either of the two mother-in-laws.

Some of the legislators view Gov. Johnson's blistering tirade about "corruptionists" with light levity. The law making body in Jackson must act mighty flagitiously to be accused of such flagitiousness, by our governor.

Walter Strider made the best witness for himself I have ever heard. If he had taken the chair at the beginning of the trial it wouldn't have taken all day to settle it. Justice of the Peace, E. C. Neelly freed Mr. Strider of the charge against him, saying that the act was a "Justifiable Homicide".

ENGAGEMENT CALLED OFF

(Taken from letter: Names withheld)

Grenada, Miss., Feb. 24th

Dear Miss Anyone.

Fair Deceiver: I did not know until last night that you had a glass eye. Woman you have deceived me and our engagement is off! If I had married you perhaps I would have found out that you had a cork leg, wore a wig and chewed your gum with false teeth. Anyway I want a girl that can do several things besides rubbing lip rouge on my cheek. Chase around girlie and get another guy.

The Johnson Program

Governor Johnson is urging the legislature to increase the tax burden by several million dollars. He has called the legislators who are opposing this tax raise "obstructionists", and he has denounced the people who have petitioned against it as "corruptionists".

Recently the governor boiled over and issued a very ugly statement charging that whiskey and lewd women were being used to corrupt the legislature. This sensasional statement was sent by the Associated Press all over the United States, and was published in many papers in other states under glaring headlines. Thereby great injury was done the good name of our state. A governor should keep his head and weigh his words.

The governor demands that the legislature adopt his tax increase program because he says his election was a mandate from the people to the legislature to increase taxes. In this the Governor is in error.

The election of Paul Johnson was not an endorsement of the program he now demands that the legislature adopt, because—

1. As a candidate, Judge Johnson did not advocate increased taxes. To the contrary, he promised tax rejeif. He said he knew where to get the money without increasing the tax burdens of the people. He declined then to reveal his plan for providing the money, and as governor he still declines to point to the way to provide the money without increasing the tax burdens on the people already overburdened—unless this plan develped after this was written and published.

2. Candidate Johnson promised to have homes and farms exempted from all taxes, to repeal the sales tax on food, clothing and all other necessities, and to abolish the agents and inspectors who annoy the people by checking up on sales tax and other taxes. Governor Johnson has not mentioned these promised reforms since his election, and they are not a part of the program he now denounces the legislature for not passing.

3. Candidate Johnson promised all old people a pension of $30 per month, and denounced Mike Conner because the latter said the state could not furnish that much money. Governor Johnson's present program would provide an average old age pension of less than $10, and would exclude thousands of aged people from receiving anything at all.

4. Candidate Johnson promised pensions for teachers and a $2,000,000 increase in state appropriations for schools. Governor Johnson's present program does not provide one penny for teacher pensions, although an administration backed bill authorizing teacher pensions is pending in the legislature. His presenf program provides an increase of only one million dollars in state school funds.

5. Candidate Johnson promised adequate charity hospitalization for all counties. Governor Johnson's program seeks to provide only $250,000 increase for this purpose—not enough to build and equip one decent hospital.

6. Not only is the governor's present program only a small fractional part of the old age pensions, free hospitalization, teacher's pensions, state school aid, and the many other free gifts he promised as a candidate; not only does the program he now advocates ignore the tax relief he promised; not only does his present program mean greatly increased tax burdens; but Johnson's financial program does not pretend to furnish enough money to pay for the things promised by its advocates. It includes the issuance of $2,500,000 of current expense bonds to supplement the wholly inadequate revenues its is estimated by the Governor and his crowd to produce. Nobody, however partisan he may be, will contend that it is sound or wise for the state to issue bonds for living expenses.

This practice brought our state government almost to bankruptcy in 1931, from which it was saved only by sound business policies of the Conner administration.

Not by the wildest stretches of imagination can it be reasoned that Johnson's election was an endorsement of the legislative program he now advocates. If he had told the people he favored only $10 per month for old age pensions, and only $250,000 for additional hospitalization; that he would not urge tax reforms; that he would fight to increase property, privilege, and income taxes; that he would fight to have the state live beyond its income, and issue $2,500,000 bonds for living expenses; if he had advocated these policies as a candidate, then Mike Conner would have been elected governor.

Legislators: Your only mandate is to protect the interests of the people.

Grenada Is Safe

The rest of the world may be living in fear and trepidation, but the skies are clear and the birds are singing in Grenada, Mississippi.

Yes, Grenada is safe and secure for two more years.

Whyte Whitaker, the anomalous editor of the Grenada County Weekly, was last week re-elected to the board of aldermen of Grenada.

Whitaker ran on a "square deal" platform, and knowing him as we do, we are quite certain that everybody in Grenada, including brother Whitaker, will get a square deal.

Whitaker has been trying to get the job as postmaster of Grenada for the past year, but the "powers-that-be" are giving him the run-around.

Maybe Congressman Ford after scanning the election returns of Grenada and finding that brother Whitaker received 435 votes, will decide that maybe Whitaker is both politically and educationally qualified to be postmaster of Grenada. —News Commercial

Defending Governor Johnson

There is sweeping over the state a wave of condemnation and resentment against Governor Johnson because he is trying to push through the legislature a seven or eight million dollar increase in state taxes.

We rush to the defense of the governor. We do not think he is getting a square deal. He very frankly told the people in the campaign just what he would give them if elected. The people wanted these things and believed he would give these things to them and so they elected him.

After all, Governor Johnson is trying to give us only about 5 percent of what he promised to give us, and is being denounced because he is trying to give us that much. People are hard to satisfy. Suppose Paul was trying to give us all he promised. We believe they would actually mob him.

Paul told us he would give us $30 per month for old age pensions. He is actually trying to give us an average of only about $8 or $10 a month.

Paul told us he would give us adequate hospitilization in every county, but he is trying to spend only $250,000 for this purpose and everybody knows that amount is less than 5 percent of the amount that would be required to give us all the hospitalization he promised.

Paul promised the school teachers a raise in salary and a retirement pension, but he is only trying to spend a million dollars more for these purposes and everybody knows that is just a fractional part of what Paul promised to give the teachers.

Paul promised to give money to boys and girls to go to college, to give much more money for public health, to give the college professors nearly a half million dollars more money for the teaching they did during the last year of the Bilbo administration. Paul has been considerate enough not to mention any of these things since he became govrnor.

We think the people, instead of condemning Governor Johnson for trying to give us a very small part of what he promised to give us, should be grateful to him and praise him for not trying to give us any more of the things he promised as a candidate.

Furthermore, we fear that if the people condemn him for trying to give us as much as 5 percent of the gifts he promised, Governor Johnson may forget to give us a complete tax exemption for the homes and farms, he may forget to repeal the sales tax on food, clothing and all other necessities, and he may forget to provide a general reduction in all taxes—all of which he promised to give us when he was a candidate. He may forget to abolish all these sales tax and income tax inspectors, examiners and auditors who worry us so much, whose heads Paul promised to cut off. These and many other forms of tax relief and reduction candidate Paul faithfully promised us.

The people should remember that it does not pay to make Santa Claus mad. Paul showed us in the campaign what one could do with "sugar on his tongue", and told us right then what he was showing us.

Let's all try to keep the Governor in a good humor.

Yalobusha River

Our people along the Yalobusha River had better bestir themselves and get substantial help on this river while the "getting is good". Uncle Sam cannot play Santa Claus forever, and after the retrenchment begins —as it inevitably must begin sometime—it will be too late for us to get substantial help here.

If the government can spend tens of millions of dollars in solving the flood problems on the Little Tallahatchie, as at the Sardis Dam, and the flood problems along the Coldwater, as at the Arkabutla dam, then the people along the Yalobusha River, which is just as important a tributary of the Yazoo system as is the Coldwater, are of right entitled to substantial help with their flood problems which are none the less acute than those of the people along the upper rivers.

The flood problems of this river are not confined to this county by any means. The people of Calhoun have, if anything, more serious problems than we have for the reason that the area menaced there is more largely cleared of timber than the areas affected in Grenada County.

A fair start has been made on the problem, but we do not want just a mere start. We want and need substantial relief, relief that will be more or less permanent.

Grenada County's last frontier, that large area south and west of Oxberry, could be developed into a fine, productive area if just half the solicitude were shown the Yalobusha as has been shown the Little Tallahatchie and the Coldwater.

We had better get it while the "getting is good".

Hugh Had the Easiest Time of All

Hugh White had the easiest time of any governor within our memory.

Conner left him a real surplus in the state treasury, and no outstanding checks against it.

Conner left him a money-gathering system that Hugh had sense enough to let alone.

Hugh had some good advisers, political and otherwise, and had sense enough to listen to them.

He tapped the only unmortgaged resource that Mississippi had—the gasoline excise tax, and had a big time spending the money. We are not saying he did not spend it judiciously.

When he got tired of worrying with job-seekers and pardon-hunters, he went off fishing, leaving the door wide open.

He left some money in the treasury, but also left some outstanding checks. In fact the counties and cities of Mississippi were cashing these checks—about $2,000,000.00 of them last week.

Hugh had a good time compared to Conner, who had to take all the cussing for creating the new revenue system and for hoarding the money; he also had a good time compared to what Paul Johnson is going to have, for Paul has to govern after the taxes had been raised almost to the limit of endurance, and after the last major resource of the state had been mortgaged. Paul also has to face the bitter fact that his inherited surplus (?) disappeared as the outstanding checks began to appear for payment.

Grenada Is Fortunate

Many counties, situated like Grenada County, with one large town and a large rural population, are governed by so-called "country minded" boards of supervisors. In such counties, the predominance of power in the country is used to pile taxes on the town as well as to shunt the good things from the town to the rural areas. While this is a short-sighted and unjust policy, such is the policy in some counties.

Grenada is fortunate in that no such condition exists in this county. Our board of supervisors cannot be called "country minded". Our board realized the mutual dependence of the county upon the city, and the city upon the county. Our board uses its power not to thwart the growth of Grenada that some transient advantage may come to the rural areas, but has used its power o aid in the growth of the entire county, including the county's only city, Grenada.

This fact was brought to our attention recently when the board agreed to help sponsor an armory to be located in this city. The rural supervisor might have said, "Hell, that armory is not to be in MY beat. I am agin it". But the board acted in this case, as it habitually acts, on the broad and tenable theory that Grenada and Grenada County must rise or fall together, and that's as it should be, that the thing that helps one helps the other.

Our good friend, George Chamberlain, votes against all unusual appropriations, as he did against this one. Far be it from us to say that George is wrong. George is to say the least consistent, for he votes "no" on anything unusual that costs the county money—and George may be right after all. Anyway he thinks he is, and is consistent about it.

Great House to have Great Day

On next Wednesday, March 20th, Grenada Grocery Company, one of Grenada's greatest establishments will have "Open House" to everyone in this part of the state who will accept an invitattion to attend.

That night, one of the greatest authorities of the nation will address the owners and employees of stores of this section. This man is Mr. Carlton F. Sturdy, an executive of the American Can Company. Mr. Oliver, head of Grenada Grocery Company, has long desired to have Mr. Sturdy in Grenada, and this year arranged his own plans so that they would mesh in with the plans and itinerary of Mr. Sturdy.

While details of these two events are covered fully elsewhere, it is timely to remind our readers that Grenada Grocery Company, with its large staff of law abiding, well-paid, home-owning and church-going men and women, is one of the very important units in Grenada's march toward its destiny, that of being indeed, as geography intended it to be, the Crossroads of North Mississippi; as is another company which the directing head of Grenada Grocery Company helped conceive and establish.

Ladrone Crenshaw and Willis Todd moved this week. Former to Graysport and the latter to Hardy. We much regret to loose them.

In regard to building the Armory at Grenada we beg to say Nebo people practically unanimously. If good people of Grenada want it let them build it and good luck to them, and hurrah for Supervisor George Chamberlain.

Mr. and Mrs. D. J. Hall have returned from a business trip to Booneville.

The pink tea given by Miss Gertie Merkle was a decided flop, as by mistake salt was used in place of sugar.

Mrs. Tillman Schmitz just received a message that her sister, Mrs. Sam Simpson, of Eupora, has died. Mrs. Simpson was a sister of the good old John Williams, of Providence and was a schoolmate of the writer of this, and we are sad to hear of her passing.

I heard the whirr of the storks wings recently.

We offer no apologies for our printing, which is of high quality; we offer none for our price, which bears a legitimate profit.

Dear Pete, these fellows are still sending Bet Horn and me bills, just like we were not aldermen.

No TVA dope this week, as that bird is crowded off my arch stuff.

I could hardly resist the temptation Monday morning to go out and catch a mule and go to plowing, but did not.

Proposed Armory For Grenada

(By J. E. Shaw, Jr.)

Headquarters Battery, 1st. Bn. 114th F. A. was organized in Water Valley, Mississippi, and was federally recognized December 17, 1926. Three years later the town of Water Valley was unable to furnish proper armory facilities and the organization was moved to Grenada. At that time, in order to get a unit of the National Guard in a city, it was necessary to assure the federal government that suitable armory facilities would be provided for the storing and safe keeping of the equipment. However that has been changed.

At the present time in order to get a unit, the city must first provide adequate armory facilities, and the cities that now have units, where the facilities are not adequate, are to lose them if the proper corrections are not made

LOCAL COMMANDER

Captain J. E. Shaw, Jr.

in a reasonable length of time. The building now occupied by the unit here in Grenada have been classed as unsafe against fire and theft, and have been condemned for this purpose. The federal authorites have notified us that unless this deficiency is corrected within a reasonable time, the unit will be removed to some other city where the facilities are available.

During the past three years quite a few cities in the state have, thru the financial assistance and cooperation of the WPA, have constructed armories to take care of their National Guard units. The following cities or towns have either constructed armories, or have them now under construction: Jackson, Cleveland, Laurel, McComb, Natchez, Gulfport, Biloxi, Meridian, Aberdeen, Decatur, Meadville, Greenville, Drew, Starkville, Corinth, Columbus, Greenwood, and Yazoo City. These armories belong to the communities who sponsor the construction thru the WPA, and every one of them is being used as community centers. The buildings when completed will belong to the city and the county for any purpose they care to use it for.

In checking the project set-up for this project here in Grenada we find that the federal government will pay over $20,000.00 for local labor on this building, and in addition most of the materials will be purchased thru local supply.

Since the organization has been in Grenada, the pay rolls to the men have amounted to $14,232.30. Several members of this organization have been able thru the assistance of their drill checks to go to college. Among these who, I am sure will bear out the above statement, are Bill Mann, W. T. Mann, Harold Biddy, Frank Jones, Jr., and Robert M. Abels, and others who were helped by the money paid them by the National Guard.

I believe if we weigh out the facts we will see that we should sponsor this project. We have not and do not intend to interfere with any other project in this city in our effort to work for the armory project.

The following is a letter - with some personal matters excluded - which I received from Bill Mann:

For sometime I have wanted to write and express my appreciation to you and the Mississippi National Guard for the services rendered, and for the many things and deeds granted to me as a result of having been a member of the Headquarter Battery First Battalion located there at Grenada. Records will show that I have been connected with that company for about eight years, and have made the training camps every summer since joining. If anybody knows the guards and the good things connected with it, for one, it's me, or else I'm deadly wrong. And right now I am proud to say that I am more than glad that I got my military training through the Mississippi National Guards. With the situation of our country today, and the war problems in Europe every man from the ages of 18 to 80 needs a certain amount of military training. I got my training right there at Grenada, along with many other good boys around my age. We're glad we have our training too, Captain, everyone of us, good training for American boys that will stick to the end—to our deaths, whether it be on the battle field or to God's call.

For those reasons Captain Shaw, I am thankful, very much so, and I am not ashamed to say that the Grenada Guards have helped me in many other ways, not only me but two of my brothers and many other boys from good respectable families in and around Grenada. The Grenada Guards helped me get through college with the amount of money that I drew for my services, of course that wasn't so very much but every penny counted with me as I am from a poor Grenada family. For four years the money that I earned by being a member of the Grenada Guards helped me struggle through Delta State College. Not only did it help me but it also helped Frank Jones and Harold Biddy also of Grenada, to get through State College. We all drew our quarterly checks regularly which no doubt kept the wolf away from our doors.

The Grenada Guards gives her boys chances to travel, to work together, and to cooperate in such a manner which enables them to become better men and better soldiers for Grenada, for Mississippi, and for the United States of America. A good motto to remember is the Scouts: "Be Prepared" and another good thing to do is "In time of War, Prepare for Peace!"

Please allow me again to thank you and the Mississippi National Guards for the good things given to me and my fellowmen of Grenada.

BASEBALL PRACTICE BEGUN

Baseball practice began not long ago with Mr. Hathorn as coach and William Spears as manager. We are expecting great things of our team and hope to get the pennant. The first game will be with Sardis on March 22 and everybody should be there to see it. Most of the boys have had one or more years experience on the diamond and it is an unusually good team.

Boys who reported for practice are: Jack Hudson, E. R. Smith, Dale Harper, "Bet" Thompson, Cecil Hendricks, Price Harrison, William Gammon, Lester Gammon, B. Collins, S. Varazo, Jay Gore, Charlie Barranco, Wormack Smith, Edgar Turnipseed, Sidney Kettle, Jack Ward, Bennie Cohen, William Spears, manager.

SPRING FEVER

For over a week the sun has been shining beautifully, the grass has begun to take on a greenish hue, the fruit trees have begun to bud, and Grenada Hi has proceeded to become inflicted with a school-wide epidemic of the dreaded spring fever. One by one the swains are keeling—obviously adhering to the old adage, "In the Spring a young man's fancy . . .", passive love affairs become enlivened in the hub-bub, countless new romances reach the first stage in their life history—you know, begun, going full speed, and forgotten. The more sentimental fell long ago, the moderate minded have begun to totter and even the stolid, rugged ones are expected to succomb sooner or later (even Volner Wilson).

The desire to go fishing in the Spring is another innate characteristic of boys. Nearby streams afford young rustics a place to fish! Dyre-Kent Drug Company offers a comforting substitute for the urban swains. Here the young fishermen congregate and seine for goldfish that are being given away with toothpaste. But they could not be content with just fishing, they had to eat them. Shame on Floyd Theisman, Wormack Smith, Mickey Angevine and especially Merritt Clogston for he ate three of them. If the Humane Society doesn't get them, Harvard College will.

"NOW, NUBBIN!"

Tilting comfortably back in his chair Coach twirled his horn rims and slowly perused the blank faces of his physics class; whom would his eyes light on, and to whom would he propound the perplexing question we knew he was formulating. From the way he was grinning with his head inclined to one side we knew he was about to "mess us up". We were collectively rueing the time we had wasted at noon when Coach addressed the question to Bobby Burris. Our pity for him was intermingled with the pending fear that I might be next. "Bobby", he asked encouragingly, "how did the ancient Babylonians know that it took light so long to get here?"

Bobby slid down on his spine, wrinkled his forhead intelligently and thought. As did Macbeth he knew that "false face must hide what false heart doth know"—nobody must realize the extent of his ignorance. So he pedantically replied: "Because it takes all night for the sun to come up."

"Is that right, Doctor Hill?"

"Absolutely correct."

"Now, Nubbin-heads!" he said and wiped his eyes.

AN ODE TO JOHN

Now listen, my children, and you shall hear a dissertation on John dear;
So very lank and tall is he
That its ever been a wonder to me
At leap year he can take any fence
And when scolded looks the picture of innocence
He is one of the very few
Whose presence the teachers do rue
So gallant is he that we are reminded of Nero
And you'd never guess he often makes zero.
At graduation time he will loose his fetters,
And then on the route help deliver letters
And because of the limit of his thirst for knowledge
He has decided not to college.

JUNIOR CLASSICAL LEAGUE

The Latin I class has organized a chapter of the Junior Classical League, a national organization sponsored by the American classical league. Each member wears an attractive JCL pin. At present there are only eight members: Terry Mac Clogston, Frances Kincaid, Josephine Barranco, Rogers Pleasants, Lucy Moss, David Childers, Margurite Stanley and Bennie Moore.

At the meeting we planned a Roman party, a class program, a classical tea, and a Roman dinner. Miss Pierce is the sponsor. We think that we are going to enjoy this very much.

Terry Mac Clogston, Reporter

GHS DIRT

Miss Pierce: For your assignment tomorrow I want you to translate the next three chapters.

Rogers Pleasants: Aw, Miss Pierce, don't give us so much to do; you know how folks are in the Springtime.

One of the highlights of the Senior Play is the splendid impersonation of little girls by Francis Hill and Bubber York.

When someone said to Ann Duncan that she was mighty curious, she retorted that it wasn't curiosity, but just thirst for knowledge.

A little bird told me Charline Caspius had a date with Walter Trussell for the Junior-Senior banquet.

Wanted: T typist; apply third row, third seat from the back row in the study hall.

Lost: A black Shaeffer fountain pen in the study hall about a month ago. Return to Jean Thomas and collect reward from the editors who lost it. Say reward. You wouldn't willingly deprive us of $3.50, now would you—fourteen weeks allowance.

Another bird has flown the nest. This time it was the dashing freshman Lucille Vanstory who eloped last month. We wish you happiness.

The brain is a peculiar organ. It starts working as soon as we wake up and it doesn't stop until we get to school.

D. M. Taylor was in a rosy mist all last week-end when Eloise Stuckey was here from Arkansas.

Mrs. Hathorn, the dramatist: Isn't the moon beautiful.

Mr. Hathorn, the scientist: A dead body!

Mickey, you'd better keep an eye on these Manns!

Sue Rowell received a picture from Texas of—oh, somebody that might have doubled for Robert Taylor.

"I'll have my rendezvous" croons Francis Hill and he has it every day in his study period in the library with Bernice Jones.

It takes all kinds, they say, to make up the world. Take Ruta Brooks for instance who read the second volume of "Vanity Fair" without knowing that she had started in the middle of the novel.

When Shakespeare said "men are to one thing constant never", he did not know Woods Winter, Jack Hudson, E. R. Smith and Kenneth Nail. He was right about such men as Dick Rule, D. M. Taylor and Francis Hill.

INTERVIEWS WITH SENIORS

Occupying the most important office in the entire student body, that of President of the Senior Class, is a brilliant young gentleman who, in his entire high school career, has failed only twice to make the honor roll. He is one of the most widely read besides countless worthy books, scores of such thrilling sensationalism as the works of Horatio Alger, The Rover Boys, Tom Swift, and the X Bar X Boys in his earlier days. His acquaintance with literature is specifically denoted by the fact that he has been the field meet contestant in Literature for the past three years. He is an excellent speaker—some day he will speak before countless juries or perhaps before the masses in a political campaign. He was a member of the great debate team of '40.

Among the original group of youngsters who have, after some twelve years become members of that renowned organization, the Senior Class, is a blonde boy of sixteen. His girl is Susan Proby of Co-Lin. "Bubber" has been a member of the band for some time, having at various times played clarinet, bass and snare drum, and the cornet. His ability as a student is proven by the fact that as a Sophomore he represented the school at the field meet in Latin, as a junior in Business Arithmetic, and as a senior in Algebra II. In the cast of the Senior Play he appears in a major role. Being of the persuasive type, his ambition is to someday influence people's opinions in the courts of law. As a student body of Grenada Hi and later of Ole Miss, how can we predict other than a successful career of law for our dear friend and classmate, Bubber York.

Why study? Look what happened to Doctor Faustus!

County and City Officials Give Beer Industry's Clean-up Program

Full Cooperation

*Proprietors of rowdy places are learning that the beer industry in this State will smoke them out if they try to hide illegal practices behind the respectability of a permit to sell legal beer—a wholesome, moderate beverage.

Members of the Brewers and Mississippi Beer Distributors Committee are refusing to sell beer to "hot spots" whose owners, representing a minority unmindful of the law and public sentiment, allow conditions which cause criticism in their communities.

This was demonstrated again on February 26th in Forrest County, when members of the Committee refused to deliver beer to eleven places in and around Hattiesburg. The Hattiesburg police department and the Sheriff's officers lent their aid, and County Attorney Hemer Pittman started prosecutions for violations of the beer law.

This cooperation between law-enforcement agencies and a valuable industry, which employs 11,000 Mississippians and provides the State and its subdivisions with more than $1,000,000 annually in tax revenue, should assure all thinking citizens that beer is on the side of law and order, decency and respectability.

You can do your part—by patronizing only law-abiding beer dealers.

EPISCOPAL AUXILIARY

All Saints Episcopal Auxiliary met in the home of Mrs. E. R. Burkley Monday afternoon at 3:30. Rev. C. S. Liles taught the lenten study. Mrs. W. W. Whitaker, president, presided during the business session which followed. The United Thank Offering will be made on April 1st. Mrs. J. W. Jordan is custodian. All of the women of the church are urged to take part in this corporate communion on April 1st at 10 o'clock. "The United Thank Offering" is because the women of the Episcopal Church all over the world unite in it, because women by this offering give thanks for small daily blessings and for special manifestations of God's Mercy; because the offerings is a gift, not an assessment of even a suggested amount.

"The U. T. O. is really a course in appreciation and that is one of the greatest of arts. Blue is the color of Heaven and we know this; that only those achieve heaven who have thanksgiving in their hearts as a permanent temper. The Blue box is a very simple affair, but it is a symbol of a process of interaction between the Divine and the human of which fruit is a finely tempered and adjusted spirit." The above is quoted from the "Dept of Christian Education" Council of Church Women, Diocese of Mississippi.

The Auxiliary meeting was closed by the members repeating the service league benediction in unison.

Letters to the Editor

Jackson, Miss., March 6, 1940

Mr. W. W. Whitaker,
Editor Grenada County Weekly,
Grenada, Miss.

Dear Mister Whitaker:

Having failed to hear from you in reply to my letter of last week, I am making an effort to send you a few of the matters we have had under consideration and my vote on same.

The clerk's office force, promised me that they would check the records and prepare this data for me and have it ready for me today, but when we adjourned today, I called by the office and found to my sorrow and disappointment that they had failed to do so.

My hesitancy in this matter is not motivated by any desire on my part to keep this information from the people whom I represent, but because of my inability to bring out the whys and wherefores of my vote, in the time and space alotted. If my whole record was available in the right form I would be only too glad to mail the whole thing to you.

What I am sending you is more or less from memory and I sincerely hope there are no mistakes, but should there be any mistakes the House Journal will carry the correct vote on all measures covering the entire session.

Thanking you for this privilege and hoping you and yours the very best in life, I am,

Very sincerely your friend,
E. G. McCORMICK

P. S. Mr. Whitaker this is just a few of the measures we have had under consideration. I wish I had a list covering every vote I have cast but I just haven't. I thought I would have a list prepared by the clerk's office force but they were to busy to prepare it even though they had promised me that they would.

You are welcome to publish this list in your paper and may I ask that you also publish the letter that I wrote you last week and this letter too.

If I can be of any service to you do not hesitate to call on me.

E. M. M.

We were delighted when in Jackson last Sunday to note that Senator John Culkin, one of the most able men in the state senate, had recovered sufficiently from a recent attack that he had been permitted to return to the senate chamber, even if he was ordered to take it easy. Anyway, he will be a reinforcement to that valiant bunch who say to the spree, "Thou shall not pass".

Us average men are likely to get a break most any time now, as it is rumored that Belly Snider and Paul Johnson have fallen out.

Our life-long friend, Vernon Gibson of Holcomb, is helping Butch McKnight with the assessment rolls. Having served one term as supervisor, Gibson should be good at it. Old man John is feeding him his dinners.

Mayor Sykes of Across the Border paid his wife's renewal the other day when I caught him in the bank.

Visit Henderson Floral Company

(by Mrs. W. W. Whitaker)

A thriving business, the Henderson Floral Co., in the very center of Grenada is one which gives much joy and beauty to citizens of Grenada and to the surrounding territory.

Beginning in a small way in 1928, Mrs. Henderson catered to a group of friends, supplying flowers and plants from her home garden on Third Street. In 1930 the business had shown such a steady and sound growth that plans for expansion were made. The vacant lot at the rear of the Central Baptist Church facing on Mound Street was arranged for. Here the first of the buildings was begun. Two rooms, the display room and work shop, were adequate for several years then several other rooms were added to meet the demand for bigger business.

In 1936 the first glassed in greenhouse, size 18x50 feet was constructed. In the summer of 1939 five greenhouses, size 12x45 were constructed. This modern floral establishment is heated by circulating hot water. Encircleing the greenhouses are "two inch" iron pipes, approximately 1000 feet of pipe used. On the north side three rows of pipes are used and to cite their efficiency Mr. Jesse Lowe Henderson stated that during the blizzard of '40 the temperature was 55 to 60 degrees, day and night. The furnace burns coal.

Although most of the business is retail Mrs. Henderson stated that wholesale shipments of chrysanthemums have been made to Memphis and New Orleans. The first "hot house" operated by this firm was growing chrysanthemums under canvas.

Since the summer of 1939, Jesse Lowe Henderson, son of Rev. and Mrs. Henderson has applied his talents to this business. He is in charge of the greenhouses, the complete landscape service and of the rose garden located on Govan Street. At this garden, which is about one-quarter acre, are grown exquisite gladioli, cut flowers, bulbs and bushes are grown here for sale. They have at all times a stock of shipped in roses and more expensive flowers in their cold storage compartment.

As one enters the first greenhouse lovely blossoms seem everywhere. Calla lilies, hyacinth, tthree types of prim roses, begonias, jonquils, potted azalias, hydrangeas in bud, geraniums and approximately 750 small ferns all arranged to form a lovely boquet. In the new greenhouse one walks through aisles bordered by lovely varied hued stocks, in pink, lavendar, and white. Exquisite sweet peas mostly in the soft pastel shade blossoms as if it were June. Snapdragons in white, talisman and rose also soft pink are in blossom. Beds of corn flowers, that lovely blue shaded flowers, are in bud. In bloom now are the caladiums in all their rich shades of yellow and orange.

Of special interest were the "flats" or shallow boxes holding seedlings of rust resisting plants of snapdragons, ageratum, alyssum, pansies, dwarf begonias, pinks and carnations. The Irish shamrock, famed for the beauty of its leaves and the small cyclamen plants, the seed of which come from Germany.

Mr. Henderson stated that he was ready to advise with the flower lovers of this territory regarding a variety of border and bedding plants, there by using other than the trusted verbena and petunias. There are 75 kinds of flowers that may be used to beautify Southern gardens.

Seen, Heard and Told By The Editor

We note where the Jackson Daily News promoted Constable Johnathon Thomas to the important post of County Attorney. We thought our friend, Marshal Perry, still held that office, and still think so in spite of the JDN.

Sister Lottie Wood celebrated her departure to a better job in Batesville by renewing her subscription. I imagine Erle Johnston Jr. will merely pause in Grenada from now on.

Speaking of Erle Jr., we visited with him a short while in Jackson Saturday afternoon. He is a bright lad and is going places, we predict.

Col. Kahn, nestor of Duck Hill, called during our absence Saturday.

Dink Thomason for whom we have been advertising for several months, showed up Monday, needing a shave. He must be running again, for he had robbed his wife's flower beds to garner garlands to garnish the desks of potential supporters. He will be bringing in fish as soon as the creeks go down sufficiently for him to "muddy" them.

Several top minnows had their viscera removed somewhat painfully recently.

Aint they sweet.

Sax Weir told me a lot of things that I do not expect to put in the paper. I might get shot.

LOST—Sugar on my tongue. Last seen during the campaign. Return to the State Capitol. No reward.

LOST—a bag of pecans. Finder can return to S. H. Horton and save embarrassment.
